DETAILED ACTION

Response to Amendment

1. This office action is responsive to the amendment filed on April 21, 2010. As directed by the amendment: claims 1, 5, 6, 9, 10, and 17-22 have been amended, claims 12-15 have been cancelled, and no new claims have been added. Thus, claims 1-11 and 16-22 are presently pending in this application.
2. Applicant's amendments are sufficient to overcome the claim objections from the previous action.
3. Regarding rejection of claims 1, 7, 19, and 20 for being indefinite (not relating to 112, 6th paragraph), Applicant's amendments to the claims are sufficient to overcome these rejections from the previous action.
4. Regarding rejection of claims 1, 9, 10, 17, 18, 20-22 for being indefinite for failing to clearly link or associate the disclosed structure, material, or acts to a claimed function under 35 U.S.C. 112, 6th paragraph, Applicant's has provided on pages 9-11 of the Remarks specific reference to portions of the specification supporting these means plus function limitations under the statute, and stated on the record that these structures, materials, or acts are disclosed for performing the claimed functions.

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory

Art Unit: 3763

obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-11 and 16-23 rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-18 of U.S. Patent No. 7,670,314 and claims 1-38 of U.S. Patent No. 7,637,891. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of the

Art Unit: 3763

presently presented claims are encompassed by or obvious over the claims of the copending patents.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
